

Experiment 1

```
#include <stdio.h>
#include <process.h>
#include <windows.h>

int main()
{
    DWORD parentPID;
    int currentPID;

    currentPID = _getpid();
    parentPID = GetCurrentProcessId();

    printf("Current Process ID : %d\n", currentPID);
    printf("Process ID (Windows) : %lu\n", parentPID);

    return 0;
}
```

```
Current Process ID : 23376
Process ID (Windows) : 23376

-----
Process exited after 1.237 seconds with return value 0
Press any key to continue . . . |
